EXPERIENCE

Travelers Insurance *St. Paul, MN*
Associate Data Engineer, BI&A Leadership Development Program Feb 2025 – Present

- Deployed a RAG-based support chatbot (Databricks Agent Framework, Vector Search, Streamlit) answering infrastructure and access questions from a live knowledge base for 300+ analytics users
- Developed Databricks governance pipelines (Jobs, Unity Catalog, Snowflake) that inventory compute and enforce cost and ownership policy
- Built cross-account serverless AWS automations (Lambda, EventBridge, SNS) that monitor compute health and reclaim idle resources across 12 accounts, saving tens of thousands of dollars yearly

Business Intelligence Intern Summer 2024

- Built automated monitoring (Snowflake, SQL, AWS, Python) for a production predictive model used by hundreds of attorneys, catching model failures early

University of Minnesota – Twin Cities *Minneapolis, MN*
Teaching Assistant, Computer Systems & Linear Algebra Fall 2023 – Spring 2024

- Led weekly lab sections for 40+ students in Intro to Computer Systems, teaching C and assembly-level computation
- Led a weekly Linear Algebra discussion section for 40 students, teaching core concepts with NumPy-based computation and visualization

PROJECTS

Gopher X Metro + Delay Forecast 2024, 2026

- Co-built a live map of U of M campus buses and Metro Transit buses and light rail, then revived it in 2026 as a free static site with no API keys
- Added daily-retrained LightGBM models (live-feed history + weather) that predict each departure's chance of running 5+ minutes late, in the browser

Will My Flight Be Delayed? 2026

- Trained a LightGBM model on 7M US flights that catches 73% of 15+ minute arrival delays (vs. 62% from on-time history alone), served with a route map and live weather

Twin Cities Living Quality Map 2026

- Combined data from 6 public sources (city, Census, CDC, MnDOT, OSM) into a weighted score for each neighborhood, shown on a Next.js map with address search and trends

EDUCATION

Georgia Institute of Technology *Fall 2026 – Fall 2028 (expected)*
M.S. in Analytics, Computational Data Analytics track

University of Minnesota – Twin Cities *Fall 2021 – Fall 2024*
B.S. in Data Science GPA: 3.7

TECHNICAL SKILLS

Languages	Python, SQL
ML & Data	scikit-learn, PySpark, Pandas, NumPy, RAG / Vector Search, Databricks Agent Framework
Platforms	Databricks (Unity Catalog, Jobs, Apps), Snowflake, AWS (Lambda, EventBridge, SNS, S3, IAM)
Tools & Web	Git/GitHub, GitHub Actions, Next.js, Streamlit
